

PRODUCERS BENEFIT BY MEAT INSPECTION

Foreigners Insist on Federally
Inspected Product.

Possible to Obtain Detailed Records of
Conditions of Animals at Time of
Slaughter—Diseases Can
Be Traced.

(Prepared by the United States Depart-
ment of Agriculture.)

"Contrary to the common belief that meat inspection is conducted principally for consumers, it has a side which is of direct help to live stock producers," says the chief of the bureau of animal industry. "In the first place, the bulk of our foreign trade in meats depends almost entirely on the federal meat-inspection service. Most foreign governments will not accept meat that has not been federally inspected. Inspection of import meats,

Inspectors at Work on Regular Post-mortem Examination.

accompanied by rejection of meat products not entitled to entry, is of course a factor in our domestic market.

"Through the federal meat-inspection service it has been possible to obtain very detailed records of conditions of animals at time of slaughter. These records show clearly whether certain animal diseases are on the increase or decrease, and, through a system known as field inspection, centers of infection have in numerous cases been found and wiped out.

"Of course, the main benefit of federal meat inspection to producers is the confidence of the American public in inspected meats, and it is noteworthy that the average per capita consumption of meats has increased as the meat-inspection service has been extended."

"cheap" paint. Green Seal spreads farther, it
excels in covering power, and surpasses in length

SPRING IS HERE BUT ARE YOU READY TO PARTAKE OF PLEAS- URES OFFERED?

Trutona Is Daily Winning Unstinted Praise From
Hundreds For Overcoming Tired, Draggy 'No-
Account' Feeling So Prevalent During The
Present Season

Does the coming of Spring with
all its pleasures mean anything to
YOU?

"That all depends," may be your
answer and admittedly "it all de-
pends"—in all depends upon whether
or not your system has withstood
the exacting siege of winter that
leaves in its wake so many many
thousands of people with completely
run-down systems.

In fact, conspicuously in minority
are those who have completely av-
oided the ravages of winter mala-
dies. True, there are thousands who
were successful in warding off at-
tacks of influenza and still more
thousands who escaped pneumonia,
but WHO IS THERE THAT DID
NOT EXPERIENCE AT LEAST
ONE HEAVY WINTER COLD DURING
THE PAST SEASON? Remember,
only second in severity to pneu-
monia and influenza, is heavy, win-
ter cough or cold.

Like pneumonia and influenza,
winter coughs and colds tend to
weaken and materially affect almost
every vital organ of the body. Peo-
ple who have suffered a heavy win-
ter cough, yet feel that their systems
have escaped the strain of winter
weather, are sadly mistaken. If
they could but grasp the fact, they
would not wonder why they feel so
tired, sluggish, lifeless and general-
ly out-of-tix, when they know they
should be full of "pep" and vitality,
in perfect harmony with the invigor-

ating breezes and sunshiny weather
of Spring.

Thousands of people are now tak-
ing Trutona, the Perfect Tonic, to
overcome this weakened physical
condition so prevalent at the close
of winter and hundreds of public
statements now being made daily,
prove that none has been disappoint-
ed in Trutona as a reconstructive
agency, system purifier and body in-
vigorant.

Trutona does its work quickly.
It speedily attacks the impurities in
the blood that might, if left alone
brings serious results. It rebuilds
broken down tissues, strengthens
nerve centers and produces proper
digestion and assimilation of food,
at the same time throwing off any
decayed matter that may have ac-
cumulated. In short, Trutona thor-
oughly and efficiently tones up
every organ of the body and gives
to your physical being the vigor
and vitality, which alone can place
within your reach the many pleas-
ures which Spring offers to the
healthy man and woman.

Trutona is sold in Barbourville at
Costello Drug Co.
